Low Tonnage Feed Handling System

Effortless Bulk Handling with Unmatched Durability

Introducing our state-of-the-art 46-bushel (1 ton) capacity hopper, engineered for efficiency and built to last. Crafted from heavy-duty 7-14 gauge steel with 100% powder-coated protection inside and out, this powerhouse hopper is designed to withstand the toughest jobs.

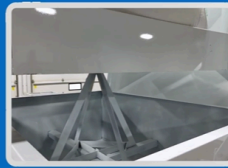

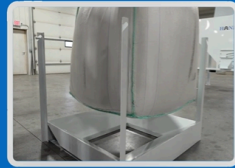

Designed for Seamless Bulk Management

Whether you're managing bulk super sacks or working with free-flowing materials, its innovative features—such as adjustable legs, an ergonomic lid opener, and forklift channels—make every task easier. The tote platform fits 1-ton bulk bags seamlessly, while the gravity-fed pour chute ensures a smooth, hassle-free dispensing process.

Elevate Your Workflow with Ultimate Convenience

Transform your workflow with the ultimate combination of durability and convenience. This hopper is built to streamline every part of your material handling process, ensuring efficiency and ease with every use.

- ✓ Durable Construction ✓ Efficient Handling
- ✓ Ergonomic Design

Key Features

Faster Discharge

The spear-tipped system quickly and cleanly punctures the bulk bag, allowing for faster material flow compared to manual cutting or other methods.

Minimal Spillage

The controlled discharge through the chute minimizes material loss and spillage, reducing waste and cleanup time.

Easy Operation

The system is designed for user-friendly operation, minimizing training requirements.

Durable Construction

The robust design ensures reliable performance and long lifespan.

Specs: Hanen Feed Handling System

DIMENSIONS: 68" wide x 96" high x 48" deep

EMPTY WEIGHT: 610 lbs

VOLUME: 46 bushel / 57 cubic feet capacity

CAPACITY: 1 and a 1/4 tote bag, which means you don't have to be completely empty to refill.
